If you already know about the Student Union, stop reading now!

You are now making the greatest investment of your life. SöderS gives you possibilities to influence its outcome.

When first arriving on Campus, most students dream of and plan for a rich academic life, good results and a successful future career – the outcome of their greatest investment.

The Student Union will provide you with the tools and the platform to steer your ambitions in your desired direction. In many ways, you are only partially responsible for the shape of your student life. Teachers, the university, the authorities, local politicians and the government are all key actors in shaping the quality of your education. SöderS supports you in the various challenges of academic studies.

SöderS also hosts a welcoming social environment with a platform for fun activities such as billiards, board games, tournaments and competitions, clubs, pub nights and parties. All this is made possible through your membership in the Student Union.

What do you need to do as a member? Nothing, a little bit, or a lot – it's up to you. Most students hang out in the Union hall occasionally, stop by the bar for a drink on pub nights, or party with friends during union festivities. Others participate actively with a variety of student associations that SöderS supports and sponsors, or act as student representatives within the university government body. But your level of commitment as a member is up to you!

SöderS during 2011

This year the Student Union has:

- organized over 100 parties and pub nights
- paid over 300,000 SEK to students selling their books at the SöderS Second Hand Bookstore since August 2010
- positioned over 400 student representatives in various university boards and councils
- helped almost 200 students in disputes with Södertörn University and other authorities
- coordinated 20 active student associations

We have:

- Made sure that Södertörn University provides free access to Wi-Fi for all students
- Issued the legal document regarding 'Rights & Responsibilities for studies at Södertörn University' in cooperation with the university administration
- Together with SSCO, made sure that all students get a reasonable discount on public transportation
- Provided a leisure area for students on the union premises
- Fought against discrimination by initiating, among other things, the anonymous examination processes
- Established the Student Environment Plan together with Södertörn University
- Developed the Equal Rights Plan together with Södertörn University
- Campaigned (and will continue to campaign until the problem is solved) for more student housing facilities.
